## Young Adult Transitions

**Seth Hostetler** graduated from Ohio University in August with a Masters of Science in Industrial Engineering. He is now at Penn State University in the Ph. D. program pursuing a dual degree in Industrial Engineering and Operations Research. He writes that he is “really enjoying his new setting—both the town and the school seem to be a good fit.” His new contact information is: 344 Fifth Avenue, State College, PA 16803. Phone: 330-201-1174. Email: sethhostetler@gmail.com

**Andrew Sensenig** was granted his Ph.D. in Entomology in August 2009 by the University of Maryland, College Park, Maryland. His research topic was fluid dynamics of small scale ventilation pumps in an aquatic insect, the mayfly nymph. His current work entails post-doctoral research in the biology department at University of Akron, Ohio. His research focus is mechanical properties of spider silk. The general focus of the laboratory which has hired him is spider evolution, behavior, and silk properties, and many projects involve collaboration with polymer scientists in order to better understand the extraordinary features of silk fibers. Currently, he is sending applications to colleges at various locations in the USA, hoping to be offered a biology faculty job.

## Ways to Help Central Christian School

Central Christian Elementary School is collecting labels for several programs. Through these programs, we are earning either money or products to use at school. *Box Tops for Education* can be found on some General Mills, Betty Crocker, Hefty and Zip-loc products to name a few. *Labels for Education* or UPCs can be found on Campbells, Pepperidge Farm, Swanson and Prego to name a few. New this year is *Labels for Learning* program. UPCs on ALL Our Family Products (Buehlers store brand) are eligible. All can be turned in at the school or given to a Central student to turn in. We would love to set a school record for collection this year and appreciate your help in saving labels and UPCs. There will be a bonus earning time for the *Labels for Learning* program in October and we appreciate any available labels given by early October. In addition to the programs listed above, we participate in a program to recycle old toner and ink cartridges from printers as well as old cell phones. Every year we send these items in to be recycled. CCS is then able to receive products or money to benefit the school. This is a wonderful way to reduce waste in landfills as well as a way to help the school.

**Holy Humor**—Sunday after church, a Mom asked her very young daughter what the Sunday School lesson was about. The daughter answered, “Don’t be scared, you’ll get your quilt.” Needless to say, the mother was perplexed. Later in the day, the pastor stopped by for tea and the mother asked him what that morning’s Sunday School lesson was about. He said, “Be not afraid, thy comforter is coming.”
